Subject: Vote NO on Senate Bill 250 and Sub.SB 250

Dear Sen. Matt Huffman,

I am writing you today to request that you vote No on Ohio SB 250 and Sub.SB 250. They are cookie cutter -- one size fits all -- legislation that does not recognize Ohio's existing laws that prosecute anyone who trespasses on or damages property. The bill is an affront to Ohio citizens who respect private property.

This legislation was drafted in response to Standing Rock and landowner protests against large pipeline projects -- something that has never occurred here. It violates Ohioans' rights to free speech and free association, and labels those acts as crimes. The bill's vague language could entrap landowners with infrastructure on their property and paves the way for industry to use eminent domain for pipelines and power lines and to use language in this bill to claim landowners are "impeding" their commercial interests.

SB 250 and Sub.SB 250 are frivolous and vindictive legislation. It is an outsiders' bill looking for a problem but will only create problems for citizens and property owners in Ohio. Please VOTE NO on SB 250 and Sub.SB 250.

Sincerely,

Mr. James Weaver

Subject: Vote NO on Senate Bill 250 and Sub.SB 250

Dear Sen. Matt Huffman,

I read the testimony from the Ohio Chamber of Commerce before the Ohio Senate committee supporting SB250. It does not convince me that any change to the current laws is required. I also read an article from the newspaper in Athens that presents pros and cons for SB250. The information in that article does not present convincing reasons to change the current law. I ask you to vote against SB250.

Thank you for considering my opinion.

I am writing you today to request that you vote No on Ohio SB 250 and Sub.SB 250. Template for Constituent Letters regarding SB 250

Thank you for contacting Senator Huffman's office regarding Senate Bill 250, which would prohibit criminal mischief, criminal trespass, and aggravated trespass on a critical infrastructure facility; impose fines for organizations that are complicit in those offenses; and, impose civil liability for damage caused by trespass on a critical infrastructure facility. Senator Huffman appreciates you taking the time to share your views with him.

S.B. 250 was introduced on January 24, 2018, by Senator Frank Hoagland (R-Mingo Junction). Currently, the bill is under consideration in the Senate Judiciary Committee. Should this legislation come before the full Senate for a vote, Senator Huffman will be sure to keep your opinions in mind.

Once again, thank you for contacting Senator Huffman's office. Should you have further questions on this or any other state-related issue, please feel free to reach out to Senator Huffman, as his door is always open.

Sincerely,

Template for Constituent Letters regarding SB 250- Free Speech

Thank you for contacting Senator Huffman's office regarding Senate Bill 250, which would prohibit criminal mischief, criminal trespass, and aggravated trespass on a critical infrastructure facility; impose fines for organizations that are complicit in those offenses; and, impose civil liability for damage caused by trespass on a critical infrastructure facility. Senator Huffman appreciates you taking the time to share your views with him.

Opponents of the S.B. 250 have voiced concerns that the bill is an infringement of their first amendment rights. This is not the intent of the bill. The legislation does not remove individuals' rights to assemble and make their opinions heard. Rather, it is designed to ensure that during such events, vital facilities like refineries and power generation facilities are not tampered with or harmed, as even the slightest damage to such infrastructure can have dramatic, negative effects for a vast number of Ohioans.

S.B. 250 was introduced on January 24, 2018, by Senator Frank Hoagland (R-Mingo Junction). The bill passed in the Senate on December 6, 2018, with a vote of 23 to 5. Senator Huffman voted in favor of this legislation. Currently, the bill has been introduced in the House and is awaiting assignment to a committee.

Once again, thank you for contacting Senator Huffman's office. Should you have further questions on this or any other state-related issue, please feel free to reach out to Senator Huffman, as his door is always open.

Sincerely,

Loccisano, Giovanna

Subject: MEDIA REQUEST: 3rd Rail Politics.com story on SB 250

Categories: Red Category

My name is Bill Perry, with 3rd Rail Politics, and I am writing a story on SB 250, for publication in 3rd Rail Politics.com

I have been able to get some information through the Ohio legislative website. However, I have a few questions regarding the bill for the story.

1. Can you give me some background leading to introduction of SB 250?
2. It protects critical infrastructure facilities from mischief; why do you feel the bill is needed?
3. How does SB 250 solve the problem?
4. Could you provide one or two quotes from Senator Hoagland for the article that explains why SB 250 is important and needs final approval?
5. What is the current status of getting the bill out of committee and onto the floor? Do you have a timeline for final passage?

Feel free to reply in writing or contact me via text or call at 517-775-3105

Thank you,

Bill Perry

Doug and Mike,

I believe everything is set for a luncheon meeting with State Senator Frank Hoagland in St. Clairsville next Monday. While Bob Evans does not make formal reservations, they will have reserved a round table that can handle 6. They have Mike Wise' name as the principal contact. Again, it is for Monday, March 19 at 67881 Mall Road at 12:30 p.m. (Bob Evans phone number is 740-695-3900.) Doug, you can invite your Gulfport colleagues. It will be a party of 6.

I spoke to the Senator yesterday and he is looking forward to the visit, especially since he has sponsor testimony on SB 250 next Tuesday (3/20) before the Senate Judiciary Committee. Perhaps some of Gulfport's discussion can be worked into his Q&A before the committee.

I am sorry I cannot be in Ohio next week....but someone has to check on Florida weather!

Chuck Hesse

Sensitive phone numbers if needed:

Mike Wise 216-509-1471- cell
Sen. Frank Hoagland 740-317-6801- cell (Staff, please give copy to the Senator)
Doug Schrantz 405-513-4941 – cell (Director of Infrastructure, Gulfport)
Damian Zampogna (Chief Hydrologist, Gulfport; oversees global water strategy and water transfer operations)
Blake Arthur (Chief Engineer, Gulfport; leads design and construction efforts)
Brett Marlow (Field Land Manager, Gulfport; works with infrastructure team and acquires water transfer rights-of-ways)

THE OHIO SENATE

132ND GENERAL ASSEMBLY

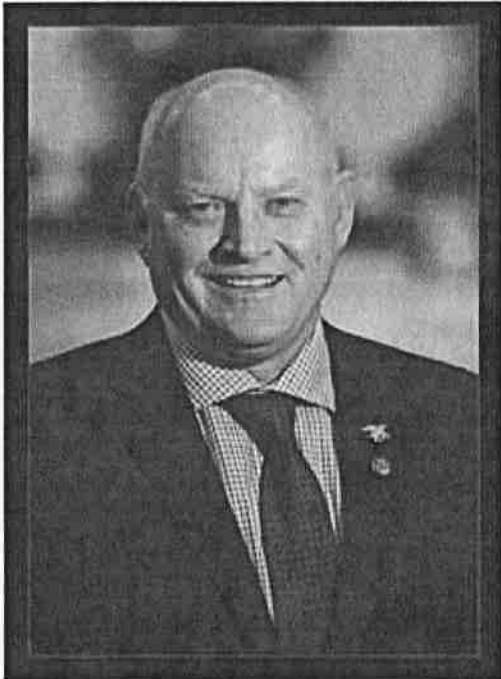

[Home](#) [Senators](#) [Latest News](#) [Session](#) [Committees](#) [Legislation](#) [Education](#) [Tour](#) [Resources](#)

Tuesday, March 13, 20

BIOGRAPHY

Senator Frank Hoagland - Senate District 30

[[Frank Hoagland Home](#)]

Senator Frank Hoagland is currently serving his first term in the Ohio Senate, representing southeastern Ohio including the counties of Carroll, Jefferson, Harrison, Belmont, Noble, Monroe, Washington, Athens, Meigs and portion of Vinton county.

A small business owner and former Navy SEAL, Senator Hoagland brings common sense leadership and honorable record of public service to Columbus. Like many Ohioans, Senator Hoagland has become frustrated with the tendency of politicians to make their next election their top priority. Instead he makes serving his district residents, the state and the country his top priority.

For Senator Hoagland, serving his country started early. He volunteered for the Navy just two weeks after graduating from Buckeye North High School in Jefferson County and quickly signed up for Navy SEAL BUD training, following in the special forces footsteps of his father who had served as an Army Green Beret.

He served as a Navy SEAL for nearly 30 years, participating in combat zones including the International War Terrorism and the War on Drugs in South America. Navy SEAL training prepared him for a life of sacrifice focusing on the notion that success comes when people focus on helping others before they focus on helping themselves.

After his last combat deployment in 2011, Senator Hoagland retired and returned to eastern Ohio. Seeking new opportunities to serve and help to protect his community, he founded the small business Special Training & Response Tactics (STRT). At STRT, he shares his expertise on emergency situation preparation and emergency response procedures with local school districts, businesses, and law enforcement agencies.

As a state senator, he looks forward to working on issues important to the people of his district, including jobs and economic development, education, veterans affairs and fighting the opiate epidemic in our state.

Senator Hoagland is married to his high school sweetheart Darla, and they live in Adena. They have two grown sons, Josh and Luke.

I spoke to the Senator yesterday and he is looking forward to the visit, especially since he has sponsor testimony on SB 250 next Tuesday (3/20) before the Senate Judiciary Committee. Perhaps some of Gulfport's discussion can be worked into his Q&A before the committee.

I am sorry I cannot be in Ohio next week....but someone has to check on Florida weather!

BIOGRAPHY

Senator Frank Hoagland - Senate District 30

[Frank Hoagland Home]

Senator Frank Hoagland is currently serving his first term in the Ohio Senate, representing southeastern Ohio including the counties of Carroll, Jefferson, Harrison, Belmont, Noble, Monroe, Washington, Athens, Meigs and portion of Vinton county.

A small business owner and former Navy SEAL, Senator Hoagland brings common sense leadership and honorable record of public service to Columbus. Like many Ohioans, Senator Hoagland has become frustrated with the tendency of politicians to make their next election their top priority. Instead he makes serving his constituents, the state and the country his top priority.

For Senator Hoagland, serving his country started early. He volunteered for the Navy just two weeks after graduating from Buckeye North High School in Jefferson County and quickly signed up for Navy SEAL BUD training, following in the special forces footsteps of his father who had served as an Army Green Beret.

He served as a Navy SEAL for nearly 30 years, participating in combat zones including the International War Terrorism and the War on Drugs in South America. Navy SEAL training prepared him for a life of sacrifice, focusing on the notion that success comes when people focus on helping others before they focus on helping themselves.

After his last combat deployment in 2011, Senator Hoagland retired and returned to eastern Ohio. Seeking new opportunities to serve and help to protect his community, he founded the small business Special Training and Response Tactics (STRT). At STRT, he shares his expertise on emergency situation preparation and emergency

response procedures with local school districts, businesses, and law enforcement agencies.

As a state senator, he looks forward to working on issues important to the people of his district, including jobs and economic development, education, veterans affairs and fighting the opiate epidemic in our state.

Senator Hoagland is married to his high school sweetheart Darla, and they live in Adena. They have two grown sons, Josh and Luke.

Attachments: image002.jpg; image003.jpg

Senator and Aaron – Thank you for your time yesterday to talk about district issues generally and SB 250 specifically. I know I speak for the Gulfport team (Doug Schrantz, Blake Arthur, Brett Marlow and Damian Zampogna) when I say that we appreciated the candid discussion and the chance to get to better know you and Aaron. One takeaway is that we may also suggest a couple changes to your Bill to more specifically address water infrastructure. We will certainly run those thoughts by Rob Eshenbaugh.

As we mentioned, Gulfport Energy is one of the largest employers in SE Ohio and we strive for excellence in all of your activities. We are heavily involved in the Foundation for Appalachian Ohio (“FAO”) and provide significant charitable support beyond the economic impact of our core business. Your insights into the infrastructure needs of your District were helpful to us and perhaps there could be a linkage with FAO activities – something to consider! Thanks again for your time and we look forward to more collaboration.

Regards,

Mike

Hoagland Testifies on Behalf of Legislation to Protect Critical Infrastructure in Ohio

COLUMBUS - State Senator [Frank Hoagland](#) (R-Mingo Junction) this week stood before the Senate Judiciary committee and reinforced the need to protect critical infrastructure in Ohio by enhancing penalties associated with certain types of wrongful acts that disrupt vital operations.

"We are beginning to see how critical infrastructure provides essential energy, communications and other vital services and products to the entire state," said Senator Hoagland. "This legislation seeks to increase measures of protecting these facilities from wrongful acts that can cause serious harm."

Senate Bill 250 would prohibit criminal mischief, trespassing and aggravated criminal trespassing and would impose fines on organizations that are found to be complicit with these offenses.

In recent months there have been a number of reports of tampering with valves and controls at pipeline facilities that can create extremely dangerous situations.

Critical Infrastructure includes all of the following but is not limited to:

- Electricity Generation, Transmission, and Generation
- Gas Production, Transport, and Distribution
- Oil, Oil Products, Production, Transportation, and Distribution
- Telecommunication
- Water Supply
- Agricultural Resources, Food Production, & Distribution
- Heating
- Transportation Systems
- Security Services

Senate Bill 250 will receive further consideration in the weeks to come.

Subject: SB 250 Form Letter

Giovanna,

We've received several of the below form letters re: SB 250 from people in our district:

Dear Sen. Obhof,

I urge you to vote NO on SB 250. This bill would apply a "guilt by association" standard when damage or trespass to a pipeline or other "critical infrastructure" happens during a protest. It could allow organizations and people who did not trespass or do any damage whatsoever to be charged with a crime if they promoted or supported an event at which this happens.

To be clear, trespassing on and damage to property are already illegal and should be. This bill unreasonably expands who can be charged for these offenses, including people who weren't even present.

This bill, which is very similar to a bill passed recently in Oklahoma and Louisiana, will have a chilling effect on citizen protest and dissent. Citizen protest has played a role in many important reforms in Ohio's history, and it's a critical part of a vibrant democracy.

SB 250 is a handout to corporate interests at the expense of Ohio's democracy. Please vote NO on SB 250.

Sincerely,

Just wanted to flag this for you guys as an FYI in case you hadn't seen it.

Good evening,

Attached are some talking points I typed up regarding SB 250. I know some of the sections are a bit long-winded, but we can go over them tomorrow afternoon and cut some information out.

Feel free to give me a call if you have any questions in advance.

Best,

Aaron T. Dauterman
Senior Legislative Aide
Office of State Senator Frank Hoagland
30th Senate District
O: (614) 466-6508
C: (330) 605-9356

Sub SB 250 Talking Points

- **Civil Action to recover for trespass – Damages**
 - Provides that a property owner may bring a civil action for recovery of compensatory damages equal to the replacement value of damaged property from a person who willfully causes damage to a critical infrastructure facility
- **Attorney's Fees**
 - Allows for the plaintiff to recover reasonable attorney's fees, court costs, and other reasonable expenses from a person who willfully causes damage to the critical infrastructure facility.
- **Vicarious Liability for Critical Infrastructure Violation**
 - Allows a person or organization who pays another person to willfully cause damage to a critical infrastructure facility or who pays the person's fines or damages in a civil action for damage caused to a critical infrastructure facility to be held vicariously liable for damage caused to a critical infrastructure facility.
- **Permissible Determinations**
 - In a civil action for causing damage to a critical infrastructure facility, allows the trier of fact to determine that the defendant willfully caused damage to the critical infrastructure facility, regardless of whether the defendant has been charged with any related criminal offense, has pleaded guilty to or been convicted of a criminal offense, or has been adjudicated a delinquent child in connection with the property damages
- **Criminal Mischief**
 - Criminal Mischief committed through tempering or hacking a computer system with the intent to cause substantial physical harm or risk is a 5th Degree Felony
 - Criminal Mischief committed intended for the disruption or interference with an aircraft and the violation creates a substantial risk of physical harm to any person or the aircraft in question is an occupied aircraft (Felony of a 4th Degree)
 - Adds new provision under current statute to expressly prohibit a person, without privilege to do so, from knowingly tampering with an existing "critical infrastructure facility." (3rd Degree Felony)
 - Also adds impeding or inhibiting an existing facility's operations.
- **Criminal Trespass**
 - Knowingly enter or remain on the land or premises of another, the use of which is lawfully restricted to certain persons, purposes, modes, or hours, when the offender knows the offender is in violation of any such restriction or is reckless in that regard. (Misdemeanor of the 4th Degree)
 - Recklessly enter or remain on the land or premises of another, as to which notice against unauthorized access or presence is given by actual communication to the offender, or in a manner prescribed by law, or by posting in a manner reasonably

calculated to come to the attention of potential intruders, or by fencing or other enclosure manifestly designed to restrict access. (Misdemeanor of the 4th Degree)

- Knowingly entering or remaining on a critical infrastructure facility (Misdemeanor of 1st Degree)

Definition of Critical Infrastructure

- "Critical infrastructure facility" means :
 - (a) One of the following, if completely enclosed by a fence or other physical barrier that is obviously designed to exclude intruders, or if clearly marked with signs that are reasonably likely to come to the attention of potential intruders and that indicate entry is forbidden without site authorization:
 - A petroleum or alumina refinery
 - An electric generating facility, substation, switching station, electrical control center, or electric transmission and distribution lines and associated equipment
 - A chemical, polymer, or rubber manufacturing facility
 - A water intake structure, water treatment facility, waste water facility, drainage facility, water management facility, or any similar water or sewage treatment system and its water and sewage piping
 - A natural gas company facility or interstate natural gas pipeline and relative components
 - A telecommunications central switching office or remote switching facility or an equivalent network facility that serves a similar purpose
 - Wireline or wireless telecommunications infrastructure, and associated assets
 - A port, trucking terminal, or other freight transportation facility
 - A gas processing plant
 - A transmission facility used by a federally licensed radio or television station
 - A steel-making facility that uses an electric arc furnace to make steel
 - A facility identified and regulated by the United States department of homeland security's chemical facility antiterrorism standards program
 - A dam that is regulated by the state or federal government
 - A crude oil or refined products storage and distribution facility
 - A video service network and broadband infrastructure
 - Any above-ground portion of an oil, gas, hazardous liquid or chemical pipeline, tank, or other storage facility
 - Any above-ground portion of a well, well pad, or production operation
 - A laydown area or construction site for pipe
 - Any railroad property

Bottom Line – Anyone who is willfully or knowingly caught WITH THE INTENT to impede, disrupt, destruct, tamper, or destroy any of the above “critical infrastructure” assets, will be found guilty of criminal mischief.

Anyone is willfully or knowingly caught refusing to leave a restricted area that is well marked by signage, fencing, or otherwise verbally communicated as a restricted area WITH THE INTENT to cause damage, impede, disrupt, tamper, destruct, or destroy in regards to any of the above “critical infrastructure” assets, will be found guilty of criminal or aggravated trespass.

Any organization that is found to be complicit in the actions of a wrongful actor found in violation of any of the provisions laid forth in this bill will be subject to damages of 10 times of the amount associated with the crimes committed.

This bill does not revoke right to peaceful protest. Anyone that is allegedly found in violation of any of this bill’s provisions is subject to a trial and is guaranteed their right of due process. If the court should find the assailant and any associated organization guilty, the penalties will come into effect.

Act of terrorism = in violation of the bill.

Subject: SB 250 ONMA Testimony
Attachments: image002.jpg; image003.png; SB 250 Testimony ONMA 11.14.18.pdf

Aaron and Giovanna—

Good afternoon! My client, Ohio News Media Association, will be delivering this testimony tomorrow in Senate Judiciary. Sorry for the late notice, this was just brought to my attention this morning. ONMA is an 'interested party' and is simply asking for the language in SB 250 to be narrowed.

When Sen. Hoagland is available, I would like to connect him with Dennis Hetzel from ONMA either in person or via phone to discuss. Obviously, Sen. Hoagland's concern is focused on trespassing and criminal activity and not the use of drones by media outlets to capture footage for a story.

Thank you both!

OHIO NEWS MEDIA ASSOCIATION | 1335 DUBLIN ROAD, SUITE 216-B | COLUMBUS OH 43215
DENNIS R. HETZEL, PRESIDENT & EXECUTIVE DIRECTOR

Ohio Senate Judiciary Committee
Senate Bill 250—Critical Infrastructure Facility Trespass
Written Testimony of Dennis R. Hetzel
President & Executive Director / Ohio News Media Association
November 14th, 2018

Chairman Bacon, Vice-Chair Dolan, Ranking Member Thomas and other members of the Judiciary Committee, thank you for this opportunity to testify regarding the drone provisions of Senate Bill 250. While the Ohio News Media Association understands and supports the intention of the bill, there is imprecise language that could lead to government interference or even arrests related to legitimate purposes, including newsgathering.

Under the bill, a first-degree misdemeanor of criminal trespass can be charged when a drone aircraft is operated over a so-called “critical infrastructure facility” that is fenced or has “no trespassing” types of warnings. The expansive definition of critical infrastructure facility includes facilities such as dams, electrical poles, trucking terminals and cellular phone towers.

News organizations make increasing use of drones to obtain images that would otherwise be difficult or impossible to obtain to report the news. Farmers, Realtors and many others also use drones at an increasing rate. Research is ongoing for package deliveries and other usages. Drone usage will continue to increase, so the need for smart regulation makes sense.

The problem here is obvious. A law that says trespassing can be charged any time a drone flies over a fenced cluster of utility lines, a trucking terminal or cellular phone tower means that drone operators will frequently, though unintentionally, break the law and could be arrested. For example, if a news organization used a drone to fly over a dam in danger of failing, the aerial shot could bring a criminal charge.

It also should be noted that legal experts are not convinced that it is within the purview of state or local governments to regulate drone use since unmanned aerial vehicles fall under the jurisdiction of the FAA. The courts have not resolved this. Assuming that this is an appropriate regulatory step for the state, the time for precise language should occur before the bill is passed.

How might this be resolved? Perhaps aerial drones could be prohibited from close-up, high-resolution images of “small footprint” infrastructure. The obvious intent of the operator might be an element. Or, we would support an exception for legitimate newsgathering purposes, although this would not cover many other legitimate purposes of drones.

We welcome the opportunity to work with bill sponsors and the committee on this issue. Thank you for this opportunity to state our concern.

**A Measure to Protect Ohio's
Critical Infrastructure Passes Senate**

COLUMBUS—State Senator Frank Hoagland (R-Mingo Junction) today announced the Senate passage of his legislation which will help protect critical infrastructure in Ohio by enhancing penalties associated with certain types of wrongful acts that disrupt vital operations.

"We are beginning to see how critical infrastructure provides essential energy, communications and other vital services and products to the entire state," said Senator Hoagland. "This legislation seeks to increase measures of protecting these facilities from wrongful acts that can cause serious harm."

Senate Bill 250 prohibits criminal mischief, trespassing and aggravated criminal trespassing and would impose fines on organizations that are found to be complicit with these offenses.

In recent months there have been a number of reports of tampering with valves and controls at pipeline facilities that can create extremely dangerous situations.

Critical Infrastructure includes all of the following but is not limited to:

- Electricity Generation, Transmission, and Generation
- Gas Production, Transport, and Distribution
- Oil, Oil Products, Production, Transportation, and Distribution
- Telecommunication

- Water Supply
- Agricultural Resources, Food Production, & Distribution
- Heating
- Transportation Systems
- Security Services

Senate Bill 250 will now be sent to the Ohio House for further consideration.

**A Measure to Protect Ohio's
Critical Infrastructure Passes Senate**

Looking on at the Cardinal Power Plant in Jefferson County, Senator Hoagland (right) alongside friend, the late Ed Dudzik (left) who was an advocate for protecting our state's critical infrastructure.

COLUMBUS—State Senator Frank Hoagland (R-Mingo Junction) today announced the Senate passage of his legislation which will help protect critical infrastructure in Ohio by enhancing penalties associated with certain types of wrongful acts that disrupt vital operations.

"We are beginning to see how critical infrastructure provides essential energy, communications and other vital services and products to the entire state," said Senator Hoagland. "This legislation seeks to increase measures of protecting these facilities from wrongful acts that can cause serious harm."

Senate Bill 250 prohibits criminal mischief, trespassing and aggravated criminal trespassing and would impose fines on organizations that are found to be complicit with these offenses.

In recent months there have been a number of reports of tampering with valves and controls at pipeline facilities that can create extremely dangerous situations.

Critical Infrastructure includes all of the following but is not limited to:

- Electricity Generation, Transmission, and Generation

- Gas Production, Transport, and Distribution
- Oil, Oil Products, Production, Transportation, and Distribution
- Telecommunication
- Water Supply
- Agricultural Resources, Food Production, & Distribution
- Heating
- Transportation Systems
- Security Services

Senate Bill 250 will now be sent to the Ohio House for further consideration.

Today in the Ohio Senate

Thursday, December 6, 2018

The Senate will recognize the following during today's Session:

- **2018 World Masters Athletics Champion:** Senator Steve Wilson (R-Maineville) will recognize Bob Arledge for being named the 2018 World Masters Athletics Champion in the pole vault. Bob is 85 years old and cleared 70 inches to claim the gold medal.
- **Farewell to Outgoing Senators:** The Senate will recognize Senators Scott Oelslager and Charleta B. Tavares for their years of faithful service to the people of Ohio.

The Senate will consider concurring on House amendments to the following bill during today's Session:

- **Sierah's Law:** Senate Bill 231, sponsored by Senator Randy Gardner (R-Bowling Green), establishes a violent offender registry system to help law enforcement identify previously convicted violent offenders in order to aid in their investigation of violent crimes.

The Senate will consider the following bills during today's Session:

- **Guarding Critical Infrastructure Against Criminal Acts:** Senate Bill 250, sponsored by Senator Frank Hoagland (R-Mingo

Junction), recognizes the essential role critical infrastructure plays in our communities and takes steps to ensure it is protected.

- **Reviving the Art of Cursive Writing:** House Bill 58 requires the Ohio Department of Education to include cursive handwriting instructional materials in the English language arts model curriculum for grades K-5. Use of the curriculum is optional for schools.
- **Protecting Vulnerable Ohioans:** House Bill 68 expands protections for victims of voyeurism to include those who are considered impaired. Current law includes protections for minors, but not those who are of legal age but do not have the ability to resist or consent.
- **Expanding Mandatory Reporters of Abused Children:** House Bill 137 will identify all county and municipal peace officers as mandatory reporters in cases of child abuse and neglect to better protect Ohio's children.
- **Affirming the Right to Self-Defense:** House Bill 228 reinforces an individual's right to self-defense. The bill shifts the requirement for an individual to prove they are innocent in a self-defense situation to instead require the prosecution to prove they are guilty.
- **Improving Palliative Care for Ohioans:** House Bill 286 creates the Palliative Care and Quality of Life Interdisciplinary Council and establishes the Palliative Care Consumer and Professional Information and Education Program.
- **Modernizing County Treasurers' Insurance Options:** House Bill 291 gives county treasurers greater flexibility to obtain an 'employee dishonesty and faithful performance of duty' insurance policy, which is more efficient and flexible than the current requirement to purchase bonds for protection of loss.
- **Clarifying Pathways to High School Graduation:** House Bill 491 re-establishes temporary alternative graduation pathways to ensure students have a fair opportunity to meet the minimum high school graduation requirements. Additionally, the bill requires the State Board of Education to develop substitute licenses for speech therapists, occupational therapists and other professionals to enable them to work as substitutes in schools.
- **Encouraging Economic Development at Community Events:** House Bill 522 will allow events such as a temporary, charitable

festivals, to apply for the designated outdoor refreshment area (DORA) exemption to open container laws.

- **Ensuring Reasonable Service Credits for School Employees:**
House Bill 572 ensures that non-teaching developmental disability board employees receive a full year of retirement credits for performing full-time services.

Hi Beth,

Hope you and Sen. Hoagland are doing well today!

Had a quick question or two for Senator Hoagland on SB 250 (critical infrastructure trespassing regulation) and HB 228 (gun bill).

- Does Sen. Hoagland have a comment on SB 250 passing, and why he thinks it will help Ohioans?
- And then, does Sen. Hoagland have a comment on his support for HB 228 - did he support the "stand your ground" portion of the bill before it was removed?

Thanks! Please get back to me before the end of the day today if possible! Working on two separate stories for our next paper.

Good afternoon Conor,

Senator Hoagland asked me to share the following with you regarding your questions:

- Does Sen. Hoagland have a comment on SB 250 passing, and why he thinks it will help Ohioans?

"We are all dependent on energy, communications, clean water, and other resources that are crucial to our daily lives. Any loss or disruption of these vital services would devastate the people of Ohio. Senate Bill 250 will hold people, with malicious intent to disrupt or destroy critical infrastructure, accountable for their actions. I believe that safety is paramount, while everything else is a planning consideration."

- And then, does Sen. Hoagland have a comment on his support for HB 228 - did he support the "stand your ground" portion of the bill before it was removed?

"Senator Hoagland understands the importance of self-defense and the 2nd amendment from his years of service as a Navy SEAL."

Thank you, please let me know if you need anything further. Have a great weekend!

Kindly,
Beth

Mabe, Aaron

From: Mabe, Aaron
Sent: Tuesday, November 13, 2018 12:13 PM
Subject: SB 250

Thank you for contacting Senator Hackett's office in regards to Senate Bill 250, which would amend sections 2307.61, 2909.07, 2909.10, 2911.21, and 2911.211 of the Revised Code to prohibit criminal mischief, criminal trespass, and aggravated trespass on a critical infrastructure facility, to impose fines for organizations that are complicit in those offenses, and to impose civil liability for damage caused by trespass on a critical infrastructure facility.

S.B. 250 was introduced on February 28, 2018 by Senator Frank Hoagland (R-Mingo Junction). Currently, the bill is pending in the Senate Judiciary Committee. Should the bill come before the entire Senate for a vote, Senator Hackett will certainly keep your views in mind.

Once again, thank you for contacting Senator Hackett's office in regards to S.B. 250. Should you have any additional questions in regards to this legislation or any other state related matter, please feel free to contact Senator Hackett's office, as his door is always open.

Sincerely,

Aaron Mabe, Legislative Aide
State Senator Bob Hackett
10th Senate District
614-466-3780

Subject: Stand against SB 250 Anti-Protest Bill

Dear Sen. Hackett,

I urge you to vote NO on SB 250. This bill would apply a "guilt by association" standard when damage or trespass to a pipeline or other "critical infrastructure" happens during a protest. It could allow organizations and people who did not trespass or do any damage whatsoever to be charged with a crime if they promoted or supported an event at which this happens.

To be clear, trespassing on and damage to property are already illegal and should be. This bill unreasonably expands who can be charged for these offenses, including people who weren't even present.

This bill, which is very similar to a bill passed recently in Oklahoma and Louisiana, will have a chilling effect on citizen protest and dissent. Citizen protest has played a role in many important reforms in Ohio's history, and it's a critical part of a vibrant democracy.

SB 250 is a handout to corporate interests at the expense of Ohio's democracy. Please vote NO on SB 250.

Sincerely,

Steven Ealy

To: State Senator Bob Hackett
Subject: Vote NO on Senate Bill 250 and Sub.SB 250

Dear Sen. Bob D. Hackett,

I am writing you today to request that you vote No on Ohio SB 250 and Sub.SB 250. They are cookie cutter -- one size fits all -- legislation that does not recognize Ohio's existing laws that prosecute anyone who trespasses on or damages property. The bill is an affront to Ohio citizens who respect private property.

This legislation was drafted in response to Standing Rock and landowner protests against large pipeline projects -- something that has never occurred here. It violates Ohioans' rights to free speech and free association, and labels those acts as crimes. The bill's vague language could entrap landowners with infrastructure on their property and paves the way for industry to use eminent domain for pipelines and power lines and to use language in this bill to claim landowners are "impeding" their commercial interests.

SB 250 and Sub.SB 250 are frivolous and vindictive legislation. It is an outsiders' bill looking for a problem but will only create problems for citizens and property owners in Ohio. Please VOTE NO on SB 250 and Sub.SB 250.

Sincerely,

I strongly urge you to oppose Senate Bill 250 which criminalizes the right to peaceful protest at oil and gas facilities in Ohio. You and I both know who is pushing this bill, those who don't want their nefarious actions brought to light. In a democracy we should be encouraging people to express their views not limit them.

To be clear, trespassing on and damage to property are already illegal and should be. This bill unreasonably expands who can be charged for these offenses, including people who weren't even present.

This bill, which is very similar to a bill passed recently in Oklahoma and Louisiana, will have a chilling effect on citizen protest and dissent. Citizen protest has played a role in many important reforms in Ohio's history, and it's a critical part of a vibrant democracy.

SB 250 is a handout to corporate interests at the expense of Ohio's democracy. Please vote NO on SB 250.

Sincerely,

Shirley Eads
24 Damon Rd.

Subject: Vote NO on Senate Bill 250 and Sub.SB 250

Dear Sen. Louis F. Terhar,

I am writing you today to request that you vote No on Ohio SB 250 and Sub.SB 250. They are cookie cutter -- one size fits all -- legislation that does not recognize Ohio's existing laws that prosecute anyone who trespasses on or damages property. The bill is an affront to Ohio citizens who respect private property.

This legislation was drafted in response to Standing Rock and landowner protests against large pipeline projects -- something that has never occurred here. It violates Ohioans' rights to free speech and free association, and labels those acts as crimes. The bill's vague language could entrap landowners with infrastructure on their property and paves the way for industry to use eminent domain for pipelines and power lines and to use language in this bill to claim landowners are "impeding" their commercial interests.

SB 250 and Sub.SB 250 are frivolous and vindictive legislation. It is an outsiders' bill looking for a problem but will only create problems for citizens and property owners in Ohio. Please VOTE NO on SB 250 and Sub.SB 250.

Sincerely,

Location: Huffman Office

FRANK HOAGLAND

STATE SENATOR, 30TH DISTRICT

1 Capitol Square, Rm. 134, Columbus, Ohio 43215

MEMORANDUM

TO: All Senate Members

FROM: Senator Frank Hoagland

DATE: December 8, 2017

RE: Co-Sponsor Request

In recent months there has been a heightened focus on critical infrastructure, both here in Ohio and across the nation. At times, this focus has produced both positive and negative outcomes. On the positive side, people are beginning to see how critical infrastructure delivers products that are essential to modern life. On the negative side, some people and organizations have taken it upon themselves to make poor decisions regarding these facilities that put others in danger. Some have attempted to disrupt operations at facilities and/or damage vital infrastructure as part of a "protest." For example, there have been a number of reports of tampering with valves and controls at pipeline facilities that can create extremely dangerous situations. The facilities that are often the target of these protestors provide essential energy, communications and other vital services and products to the entire state.

I will soon be introducing legislation that seeks to discourage such activities by enhancing penalties associated with certain types of wrongful acts. Specifically, this legislation will prohibit criminal mischief, criminal trespass, and aggravated criminal trespass at a critical infrastructure facility. It will also impose fines on those organizations that are found to be complicit with in these offenses, and impose civil liability damage caused by trespass at a critical infrastructure facility.

Critical Infrastructure includes all of the following but is not limited to:

- Electricity Generation, Transmission, and Generation
- Gas Production, Transport, and Distribution
- Oil, Oil Products, Production, Transportation, and Distribution
- Telecommunication
- Water Supply
- Agricultural Resources, Food Production, & Distribution
- Heating
- Transportation Systems
- Security Services

To be clear, we are not attempting to restrict anyone's First Amendment right to free speech or their ability to protest peacefully. This proposed legislation is aimed at those who cross the line and damage critical infrastructure placing the public and others in jeopardy.

If you have any questions or would like to co-sponsor this legislation, please contact Aaron Dauterman at 466-6508 or aaron.dauterman@ohiosenate.gov. The **deadline to co-sponsor is the close of business Friday, December 15, 2017.** Thank you for your consideration.

COMMITTEES:

Agriculture – Vice Chair
Energy and Natural Resources
Local Government, Public Safety & Veterans Affairs
Transportation, Commerce & Workforce

Sent: Saturday, November 10, 2018 10:21 AM
To: State Senator Bob Peterson
Subject: Stand against SB 250 Anti-Protest Bill

Dear Sen. Peterson,

I urge you to vote NO on SB 250. This bill would apply a "guilt by association" standard when damage or trespass to a pipeline or other "critical infrastructure" happens during a protest. It could allow organizations and people who did not trespass or do any damage whatsoever to be charged with a crime if they promoted or supported an event at which this happens.

To be clear, trespassing on and damage to property are already illegal and should be. This bill unreasonably expands who can be charged for these offenses, including people who weren't even present.

This bill, which is very similar to a bill passed recently in Oklahoma and Louisiana, will have a chilling effect on citizen protest and dissent. Citizen protest has played a role in many important reforms in Ohio's history, and it's a critical part of a vibrant democracy.

SB 250 is a handout to corporate interests at the expense of Ohio's democracy. Please vote NO on SB 250.

Sincerely,

Elaine Long

Dear Ms. Long,

Thank you for contacting my office. I received your email opposing Senate Bill 250. As your State Senator in Columbus, it is important for me to not only know, but also to understand the issues and concerns of those I represent. As such, I truly appreciate you taking the time to reach out to me.

Thank you, in particular, for reaching out to me on an issue that you feel strongly about. We in the Ohio legislature continue to review Senate Bill 250 and your input is an important part of that process. Please be assured that I will keep your thoughts in mind as we continue to study and debate the future of critical infrastructure facility regulation in Ohio.

Thank you for raising my awareness of this issue. If I can ever be of assistance to you in the future, please do not hesitate to contact me.

Sincerely,

Bob Peterson
State Senator, District 17

Subject: RE: Vote NO on Senate Bill 250 and Sub.SB 250

Dear Mr. Whitaker,

Thank you for contacting my office. I received your email opposing Senate Bill 250. As your State Senator in Columbus, it is important for me to not only know, but also to understand the issues and concerns of those I represent. As such, I truly appreciate you taking the time to reach out to me.

Thank you, in particular, for reaching out to me on an issue that you feel strongly about. We in the Ohio legislature continue to review Senate Bill 250 and your input is an important part of that process. Please be assured that I will keep your thoughts in mind as we continue to study and debate the future of critical infrastructure facility regulation in Ohio.

Thank you for raising my awareness of this issue. If I can ever be of assistance to you in the future, please do not hesitate to contact me.

Sincerely,

Bob Peterson
State Senator, District 17

Subject: Vote NO on Senate Bill 250 and Sub.SB 250

Dear Sen. Bob Peterson,

I am writing you today to request that you vote No on Ohio SB 250 and Sub.SB 250. They are cookie cutter -- one size fits all -- legislation that does not recognize Ohio's existing laws that prosecute anyone who trespasses on or damages property. The bill is an affront to Ohio citizens who respect private property.

This legislation was drafted in response to Standing Rock and landowner protests against large pipeline projects -- something that has never occurred here. It violates Ohioans' rights to free speech and free association, and labels those acts as crimes. The bill's vague language could entrap landowners with infrastructure on their property and paves the way for industry to use eminent domain for pipelines and power lines and to use language in this bill to claim landowners are "impeding" their commercial interests.

SB 250 and Sub.SB 250 are frivolous and vindictive legislation. It is an outsiders' bill looking for a problem but will only create problems for citizens and property owners in Ohio. Please VOTE NO on SB 250 and Sub.SB 250.

Sincerely,

Mr. Warren Whitaker

Sent: Saturday, November 10, 2018 4:22 PM
To: State Senator Bob Peterson
Subject: Stand against SB 250 Anti-Protest Bill

Dear Sen. Peterson,

I urge you to vote NO on SB 250. This bill would apply a "guilt by association" standard when damage or trespass to a pipeline or other "critical infrastructure" happens during a protest. It could allow organizations and people who did not trespass or do any damage whatsoever to be charged with a crime if they promoted or supported an event at which this happens.

To be clear, trespassing on and damage to property are already illegal and should be. This bill unreasonably expands who can be charged for these offenses, including people who weren't even present.

This bill, which is very similar to a bill passed recently in Oklahoma and Louisiana, will have a chilling effect on citizen protest and dissent. Citizen protest has played a role in many important reforms in Ohio's history, and it's a critical part of a vibrant democracy.

SB 250 is a handout to corporate interests at the expense of Ohio's democracy. Please vote NO on SB 250.

Sincerely,

Greg Nelson

Dear Sen. Bob Peterson,

I wouldn't be surprised if ALEC drafted this legislation. History is repeating itself. Wall Street and CEOs are telling legislators what to do. I think that it would be in the best interest of the republican party to work for the working people and families. Trumpism is dying, he is in deep do-do, he steps in his own everyday. Folks in Columbus need to get on the ball and finish the Chesapeake Bypass, also called the Tri-State Outer Belt down here in Lawrence county to spur some growth. This area is in the same shape as West Virginia, young people leaving to find decent paying jobs elsewhere, my son included. Put your foot down Sen. Peterson and ignore the Federalist Society, they want to water-down our rights.

I am writing you today to request that you vote No on Ohio SB 250 and Sub.SB 250. They are cookie cutter -- one size fits all -- legislation that does not recognize Ohio's existing laws that prosecute anyone who trespasses on or damages property. The bill is an affront to Ohio citizens who respect private property.

This legislation was drafted in response to Standing Rock and landowner protests against large pipeline projects -- something that has never occurred here. It violates Ohioans' rights to free speech and free association, and labels those acts as crimes. The bill's vague language could entrap landowners with infrastructure on their property and paves the way for industry to use eminent domain for pipelines and power lines and to use language in this bill to claim landowners are "impeding" their commercial interests.

SB 250 and Sub.SB 250 are frivolous and vindictive legislation. It is an outsiders' bill looking for a problem but will only create problems for citizens and property owners in Ohio. Please VOTE NO on SB 250 and Sub.SB 250.

Dear Mr. Easter,

Thank you for contacting my office. I received your email opposing Senate Bill 250. As your State Senator in Columbus, it is important for me to not only know, but also to understand the issues and concerns of those I represent. As such, I truly appreciate you taking the time to reach out to me.

Thank you, in particular, for reaching out to me on an issue that you feel strongly about. We in the Ohio legislature continue to review Senate Bill 250 and your input is an important part of that process. Please be assured that I will keep your thoughts in mind as we continue to study and debate the future of critical infrastructure facility regulation in Ohio.

Thank you for raising my awareness of this issue. If I can ever be of assistance to you in the future, please do not hesitate to contact me.

Sincerely,

Bob Peterson
State Senator, District 17

Subject: Vote NO on Senate Bill 250 and Sub.SB 250

Dear Sen. Bob Peterson,

I am writing you today to request that you vote No on Ohio SB 250 and Sub.SB 250. They are cookie cutter -- one size fits all -- legislation that does not recognize Ohio's existing laws that prosecute anyone who trespasses on or damages property. The bill is an affront to Ohio citizens who respect private property.

This legislation was drafted in response to Standing Rock and landowner protests against large pipeline projects -- something that has never occurred here. It violates Ohioans' rights to free speech and free association, and labels those acts as crimes. The bill's vague language could entrap landowners with infrastructure on their property and paves the way for industry to use eminent domain for pipelines and power lines and to use language in this bill to claim landowners are "impeding" their commercial interests.

SB 250 and Sub.SB 250 are frivolous and vindictive legislation. It is an outsiders' bill looking for a problem but will only create problems for citizens and property owners in Ohio. Please VOTE NO on SB 250 and Sub.SB 250.

Sincerely,

Mr. Kenneth Easter

PRESS STATEMENT

Lame duck lottery: Slew of dangerous bills loom as General Assembly winds down

Contact: Zach Schiller
216.361.9801

As Ohio's General Assembly closes out its work for the two-year session, there is plenty to keep an eye on—and be concerned about. Beyond those issues that get a lot of public attention, others that affect the quality of life for Ohioans – as well as their democratic rights and their pocketbooks – can slip through in a lame-duck session. Here is a list of just some of the bills that could be approved in this legislature's waning days – or inserted into a "Christmas tree" bill that originally had little or nothing to do with many of the provisions added on to it:

- House Bill 390 would narrow the current notice period on evictions. The bill didn't move, but the policy was dropped into an unrelated bill, Senate Bill 273, only to be stripped out after facing significant opposition. Advocates for Ohio's Future and the Akron Beacon Journal, among others, call it out as bad policy. But like the others listed here, it could pop up again before it's all over.
- House Bill 625 would outlaw localities from levying plastic bag taxes, like one proposed in Cuyahoga County. As the Columbus Dispatch pointed out, this is just one more attempt by lawmakers to get in the way of localities solving local problems.
- Another bill, Senate Bill 293, would require state agencies to reduce the Ohio Administrative Code – rules that implement state law – by 30 percent. This ham-handed attempt at deregulation is directed at eliminating rules that use words such as "shall," "must" and "require," as if these are somehow bad words. This outlandish notion has no place in state law.
- Through House Bill 182, legislators also could dismantle important safeguards covering debt settlement companies, which have a national reputation for preying on the financially vulnerable.

- Another bill, Senate Bill 250, could limit the right to protest at a long list of “critical infrastructure facilities” such as pipelines and dams. As The Plain Dealer said, “SB 250 aims to make Ohioans put up, and shut up, in the face of environmental challenges. The state Senate's GOP caucus might not know it, but that's not how democracy works.”
- House Bill 119, approved by the Senate Wednesday, takes oversight of eligibility in Medicaid and food aid out of the hands of the Governor, making it harder to change rules to meet needs in changing economic times. Out-of-state interest groups promote this bill, but problems in Ohio's programs are with the private businesses in the service delivery – like pharmacy benefit managers – not with enrollees and eligibility, which this bill focuses on.
- House Bill 494, which also won Senate approval Wednesday, would shield corporate franchise owners from bearing joint responsibility with their franchisees, even when owners discourage or prevent franchisees from complying with minimum wage, overtime, health and safety and other laws designed to protect workers. Governor Kasich should be urged to veto both HB 119 and HB 494, which are likely to be enacted since both houses have passed versions of them that just have to be reconciled.

And let's not forget about tax policy. One Christmas tree bill, House Bill 51, initially carried an amendment to give a tax break to special retirement plans of top managers so they wouldn't be covered by municipal income taxes. Thankfully, the amendment got pulled at the 11th hour. This tax break was improved from last year – it wasn't retroactive, for example - but it would be another blow to local governments that have seen over \$1 billion a year taken away because of state policies. It may pop up again before this lame duck dies. Another bill, House Bill 469, would create a new uncapped tax credit for big mixed-use development projects with unknown costs and inadequate safeguards.

Amidst these various threats, there are some opportunities for legislation that will help Ohioans thrive. House Bill 750 would add \$5 million to the badly underfunded state grant for low-income college students, the Ohio College Opportunity Grant. Senate Bill 225 would provide state funds for needed expansion of broadband. And in a positive step, the General Assembly just approved House Bill 158. Though it should have been expanded to cover others, it will allow spouses to receive unemployment benefits if a military transfer forces them to quit their job.

Of course, this is just a partial listing of the bills before the legislature, and if past is prologue, there will be other surprises before the session ends. Another extreme measure that would undercut Ohioan's right to bring constitutional amendments to the ballot, House Joint Resolution 19, appears to be dead for this year. But many of these measures will be back again next year if they don't make it into law this time around.

Subject: SB 250 - Critical Infrastructure Protection Act

Dear Colleagues,

Senate Bill 250 had a second hearing last week in the Senate Judiciary Committee. This bill would prohibit criminal mischief, criminal trespass, and aggravated trespass on a critical infrastructure facility and impose fines and civil liability for damage caused by trespassing on a critical infrastructure facility. Some of you may be wondering why this legislation is needed. Here are links to two articles that appeared on the "Earth First!" website – the first article describes the sabotage the group used to disrupt the Mariner East 2 pipeline near Exton, PA and the second link provides information about the upcoming training that Appalachia Resist will be providing near Athens in early July:

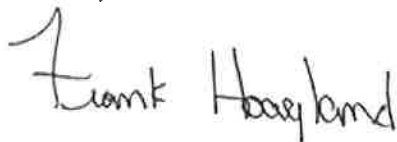

<https://earthfirstjournal.org/newswire/2018/04/11/mariner-east-2-pipeline-sabotaged/>

<https://earthfirstjournal.org/newswire/2018/06/10/an-update-on-the-2018-earth-first-round-river-rendezvous-in-ohio/>

SB 250 does not infringe on our First Amendment rights and will not limit the ability of people to protest. It may make groups or individuals think twice though before they destroy private property or impede critical infrastructure like facilities for water treatment, telecommunications, and energy that all impact our daily lives and the Ohio economy. Fortunately Ohio has not experienced the level of problems that some other states have, but it makes sense to be prepared.

If you have any questions, please give me a call.

Sincerely,

Frank Hoagland
State Senator, 30th District
614-466-6508

This legislation was drafted in response to Standing Rock and landowner protests against large pipeline projects -- something that has never occurred here. It violates Ohioans' rights to free speech and free association, and labels those acts as crimes. The bill's vague language could entrap landowners with infrastructure on their property and paves the way for industry to use eminent domain for pipelines and power lines and to use language in this bill to claim landowners are "impeding" their commercial interests.

SB 250 and Sub.SB 250 are frivolous and vindictive legislation. It is an outsiders' bill looking for a problem but will only create problems for citizens and property owners in Ohio. Please VOTE NO on SB 250 and Sub.SB 250.

Sincerely,

Mrs. Patricia Adams

Subject: Vote NO on Senate Bill 250 and Sub.SB 250

Dear Sen. Bob Peterson,

I am writing you today to request that you vote No on Ohio SB 250 and Sub.SB 250. They are cookie cutter -- one size fits all -- legislation that does not recognize Ohio's existing laws that prosecute anyone who trespasses on or damages property. The bill is an affront to Ohio citizens who respect private property.

This legislation was drafted in response to Standing Rock and landowner protests against large pipeline projects -- something that has never occurred here. Dear Ms. Christian,

Thank you for contacting my office. I received your email opposing Senate Bill 250. As your State Senator in Columbus, it is important for me to not only know, but also to understand the issues and concerns of those I represent. As such, I truly appreciate you taking the time to reach out to me.

Thank you, in particular, for reaching out to me on an issue that you feel strongly about. We in the Ohio legislature continue to review Senate Bill 250 and your input is an important part of that process. Please be assured that I will keep your thoughts in mind as we continue to study and debate the future of critical infrastructure facility regulation in Ohio.

Thank you for raising my awareness of this issue. If I can ever be of assistance to you in the future, please do not hesitate to contact me.

Sincerely,

Bob Peterson
State Senator, District 17

Subject: Stand against SB 250 Anti-Protest Bill

Dear Sen. Peterson,

I urge you to vote NO on SB 250 or any related bill. This bill would apply a "guilt by association" standard when damage or trespass to a pipeline or other "critical infrastructure" happens during a protest. It could allow organizations and people who did not trespass or do any damage whatsoever to be charged with a crime if they promoted or supported an event at which this happens.

To be clear, trespassing on and damage to property are already illegal and should be. This bill unreasonably expands who can be charged for these offenses, including people who weren't even present.

This bill, which is very similar to a bill passed recently in Oklahoma and Louisiana, will have a chilling effect on citizen protest and dissent. Citizen protest has played a role in many important reforms in Ohio's history, and it's a critical part of a vibrant democracy.

SB 250 is a handout to corporate interests at the expense of Ohio's democracy. Please vote NO on SB 250.

Sincerely,

Mary Johnson

To: State Senator Bob Peterson
Subject: Stand against SB 250 Anti-Protest Bill

Dear Sen. Peterson,

I urge you to vote NO on SB 250 or any related bill. This bill would apply a "guilt by association" standard when damage or trespass to a pipeline or other "critical infrastructure" happens during a protest. It could allow organizations and people who did not trespass or do any damage whatsoever to be charged with a crime if they promoted or supported an event at which this happens.

To be clear, trespassing on and damage to property are already illegal and should be. This bill unreasonably expands who can be charged for these offenses, including people who weren't even present.

This bill, which is very similar to a bill passed recently in Oklahoma and Louisiana, will have a chilling effect on citizen protest and dissent. Citizen protest has played a role in many important reforms in Ohio's history, and it's a critical part of a vibrant democracy.

SB 250 is a handout to corporate interests at the expense of Ohio's democracy. Please vote NO on SB 250.

Sincerely,

Dawn Aikin

Dear Ms. Aikin,

Thank you for contacting my office. I received your email opposing Senate Bill 250. As your State Senator in Columbus, it is important for me to not only know, but also to understand the issues and concerns of those I represent. As such, I truly appreciate you taking the time to reach out to me.

Thank you, in particular, for reaching out to me on an issue that you feel strongly about. We in the Ohio legislature continue to review Senate Bill 250 and your input is an important part of that process. Please be assured that I will keep your thoughts in mind as we continue to study and debate the future of critical infrastructure facility regulation in Ohio.

Thank you for raising my awareness of this issue. If I can ever be of assistance to you in the future, please do not hesitate to contact me.

Sincerely,

Bob Peterson
State Senator, District 17

Subject: Vote NO on Senate Bill 250 and Sub.SB 250

Dear Sen. Bill Coley,

Please protect the right of the people to protest and use their right of free speech. Our democracy depends upon it!

I am writing you today to request that you vote No on Ohio SB 250 and Sub.SB 250. They are cookie cutter -- one size fits all -- legislation that does not recognize Ohio's existing laws that prosecute anyone who trespasses on or damages property. The bill is an affront to Ohio citizens who respect private property.

This legislation was drafted in response to Standing Rock and landowner protests against large pipeline projects -- something that has never occurred here. It violates Ohioans' rights to free speech and free association, and labels those acts as crimes. The bill's vague language could entrap landowners with infrastructure on their property and paves the way for industry to use eminent domain for pipelines and power lines and to use language in this bill to claim landowners are "impeding" their commercial interests.

SB 250 and Sub.SB 250 are frivolous and vindictive legislation. It is an outsiders' bill looking for a problem but will only create problems for citizens and property owners in Ohio. Please VOTE NO on SB 250 and Sub.SB 250.

Sincerely,

I am writing you today to request that you vote No on Ohio SB 250 and Sub.SB 250. They are cookie cutter -- one size fits all -- legislation that does not recognize Ohio's existing laws that prosecute anyone who trespasses on or damages property. The bill is an affront to Ohio citizens who respect private property.

This legislation was drafted in response to Standing Rock and landowner protests against large pipeline projects -- something that has never occurred here. It violates Ohioans' rights to free speech and free association, and labels those acts as crimes. The bill's vague language could entrap landowners with infrastructure on their property and paves the way for industry to use eminent domain for pipelines and power lines and to use language in this bill to claim landowners are "impeding" their commercial interests.

SB 250 and Sub.SB 250 are frivolous and vindictive legislation. It is an outsiders' bill looking for a problem but will only create problems for citizens and property owners in Ohio. Please VOTE NO on SB 250 and Sub.SB 250.

Sincerely,

Ms. June Nelson

To: State Senator Bill Coley
Subject: Stand against SB 250 Anti-Protest Bill

Dear Sen. Coley,

I urge you to vote NO on SB 250. This bill would apply a "guilt by association" standard when damage or trespass to a pipeline or other "critical infrastructure" happens during a protest. It could allow organizations and people who did not trespass or do any damage whatsoever to be charged with a crime if they promoted or supported an event at which this happens.

To be clear, trespassing on and damage to property are already illegal and should be. This bill unreasonably expands who can be charged for these offenses, including people who weren't even present.

This bill, which is very similar to a bill passed recently in Oklahoma and Louisiana, will have a chilling effect on citizen protest and dissent. Citizen protest has played a role in many important reforms in Ohio's history, and it's a critical part of a vibrant democracy.

SB 250 is a handout to corporate interests at the expense of Ohio's democracy. Please vote NO on SB 250.

Sincerely,

Barbara Olson

Message :
Senator Coley:

As your constituents, we ask you to vote NO on SB 250.

SB 250 is wrong for a number of reasons. It seems to have been drafted by private industries who are upset by protests against large pipeline projects – it is similar to other bills promoted by the same people in other parts of the country. It was not written to help Ohio. Peaceful protest, a right of all Americans, would be criminalized. Laws that criminalize damage to private property are already included in the Ohio Revised Code.

Vote NO on SB 250.

I write to share my views on SB 250. I hope that you will vote NO.

This bill criminalizes the right to peaceful protest. This is unconstitutional, and the reason why the non-partisan group, Ohio League of Women Voters, has come out strongly opposed to this legislation.

The Ohio Revised Code already includes laws that any private company can use to criminalize the damage of private property, so those supporting SB 250 with that reasoning are being deceptive. We already have legislation to protect private property damage.

As a Republican, I expect you would want to protect our Constitution and our rights as Americans to protest.
